

fotofever, forced to cancel its 2020 edition

Despite the unwavering determination of the entire team, we are forced today to cancel the 9th edition of fotofever paris, international art fair dedicated to contemporary photography.

We believed it would happen until the last moment and put all our energies and took all necessary measures to ensure that this particular edition could be held in accordance with the required health regulations. However, following the extension of the prefectural decree of October 5th, fotofever paris scheduled for November 13th to 15th 2020 at the Carrousel du Louvre, can longer take place.

We deeply regret this ban but remain determined to continue our mission of promoting the discovery and collection of contemporary photography.

With this in mind, we are pleased to announce that the **winners of the 3rd edition of the fotofever prize with dahinden** - Camille Brasselet, Victor Cavasino and Tereza Kozinc - will be exhibited in a unique setting dedicated to contemporary art: **Not a Gallery (NAG)**, from November 18th to December 17th, 2020.

*Free admission, Monday to Saturday 11 am-6pm
104 avenue Raymond Poincaré (Paris 16th)*

fotofever prize with dahinden, springboard for young photographic talents. In partnership with the professional laboratory Dahinden, fotofever accompanies the 3 laureates from the production to the exhibition of their photographic works.

We would once again like to warmly thank **our galleries, their artists and all our partners** for their support and unfaltering confidence.
