

SAVE THE DATE 2017

fotofever is the first platform dedicated to the discovery of emerging contemporary photography for both established and aspiring collectors.

In 2017, fotofever reinforces its START TO COLLECT program with two new events taking place during the major photography rendezvous in France.

PARCOURS I PARIS #1 20 APRIL > 01 MAY 2017

Integrated in the Mois de la Photo-OFF program, now taking place in April, the first edition of the fotofever paris parcours will highlight a selection of emerging photographic talents through an initiation tour amongst 30 galleries in Paris.

EXPO I ARLES #1 03 JULY > 24 SEPT 2017

In partnership with the Manuel Rivera-Ortiz Foundation, and in collaboration with a selection of galleries, the first group exhibition of fotofever arles will showcase the diversity of documentary photography by creating a dialogue through the works of emerging and international artists.

ART FAIR I PARIS #6 10 > 12 NOV 2017

The big rendezvous for established and aspiring collectors, fotofever paris returns to the Carrousel du Louvre for its 6th edition with 80 French and international galleries, presenting over 150 emerging artists.

START TO COLLECT

fotofever recognises collecting a major support system for young artistic creation and photography as the ideal medium to start one's collection. By reinforcing its START TO COLLECT program, fotofever accompanies, throughout the year, established and aspiring collectors in the discovery of new artists, techniques and artistic horizons.
